

# Living Well, together

At Living Well we don't just accept difference, we celebrate, support and thrive on it.

Living Well is a diverse living environment for all, where everyone is **welcomed and respected**.

We **value everyone** who lives and works in our communities and will **actively challenge discrimination** and hate when we see and hear it.

We will support people to **understand our differences** and help each other to **live healthy, happy lives**.

We will continue to **learn and grow** to make sure our communities are **fully inclusive and safe places for all**.
