

Environmental, social and governance report

This report sets out the performance and impact of United Welsh Housing Association Ltd in terms of the Environmental, Social and Governance (ESG) aspects of our business.

We have chosen to use the framework devised by the UK-wide ESG Social Housing Working Group. The Group developed a Sustainability Reporting Standard for Social Housing (SRS) which was launched in November 2020, covering 48 criteria. The Standard develops the 3 ESG areas into 12 themes and each theme is aligned with the UN Sustainable Development Goals. Each theme has one or more criteria against which to measure; some criteria are classed a 'Core' (the most important) or 'Enhanced' (more aspirational).

This is our third report using this framework and shows results for all Core criteria (C) and those Enhanced criteria (E) where we have made some progress. The information will be updated annually.
